

Mr. Phil [REDACTED]

April 18, 2008

Murphy Brown bin clean out.

Mr [REDACTED]

This note is to thank you and your crew, Josh and Heath, for the work you did at our facility during the week of April 14.

The work was performed satisfactorily and was completed in a timely manner as should be expected.

Your ability to work with our crew added to the efficiency of the project completion. Also the workman like manner in handling your equipment and working around our production operation was greatly appreciated. Not all contractors provide this level of service.

Your experience was evident in the project. If there is a need to clean bins in the future, I will request Mole-Master to do the work and will be happy to recommend your service to other facilities.

Best regards,

[REDACTED]  
Waverly Mill Manager

Gentlemen

The Crew of John [REDACTED], Shannon [REDACTED] and Freddie [REDACTED] did an excellent job on the tanks in [REDACTED] and the bin in [REDACTED]. They should be commended for a job well done at both locations. I would highly recommend them to another Cargill facility if they had bin cleaning that needed to be done.

[REDACTED]

P.S. - Any questions, call me at [REDACTED]

Dear Luke [REDACTED]

I want to thank you for the professional service from your crew while working at the LOLPF Gainesville Plant in November. I was satisfied with the services from Master Superintendent Mike [REDACTED] and his crew, Tom [REDACTED] and Jeremiah [REDACTED].

I will recommend Mole-Master Cleanout Specialists to my colleagues and will continue to business with your company.

Please feel free to contact me at [REDACTED]

Sincerely,

[REDACTED]

Plant Manager

July 16, 2004

Dear Mole Master:

About a year ago I was first introduced to Mole Master Services Corporation when I was placed as manager of a newly acquired feed mill that was in need of extensive bin cleaning. The team of men that Mole Master assigned to the project did an outstanding job. Recently I had the need to clean the interior surface of a 1.2 million bushel grain tank. Because of my earlier experience, Mole Master was selected to complete the job. John [REDACTED], John [REDACTED] and Alex [REDACTED] completed the job at a level that was equally as impressive as the first experience. These three guys are knowledgeable, hard working, conscientious, and personable. A good line of communication was maintained between they and I that allowed me to stay aware of the progress. I will recommend Mole Master to others in the feed manufacturing industry. Please feel free to use me as a reference if you wish.

Sincerely,

[REDACTED]

Marietta, OH 45750

Dear: Dave

This letter is in regards to (3) of your employees that conducted a job at our worksite on December 21-23, 2005. I have been in the Safety field for 20 plus years and have worked with many on-site contractors, some very good and some that were very disappointing.

I would like to recognize Mike [REDACTED], Dan [REDACTED] and John [REDACTED] with Mole-Master for the professionalism and their dedication to Safety. These three individuals displayed a level of safety and teamwork second-to-none that other contractor companies could only hope for.

It was certainly a pleasure to work with this crew and I would recommend them to anyone to conduct work on their site.

[REDACTED]  
Sincerely,

[REDACTED]
